

Material Data Sheet

Crystal Clear Labels

Top material

Material description:	Gloss transparent polyester film	
Printer suitability:	Laser	
Thickness	DIN 534	50 µm
Grammage	DIN 536	70 g/m ²

Adhesive

Material description:	Acrylic, water based adhesive
-----------------------	-------------------------------

Liner material

Material description:	White kraft paper, one side siliconized
-----------------------	---

Laminate

Thickness	DIN 534	173 µm
Grammage	DIN 536	189 g/m ²
Service temperature:	-20 to 80° C	
Min. application temperature:	0°C	
Optimum storage conditions:	23°C at 50%rH
